PROFESSIONAL SUMMARY

Founder-led operations and implementation specialist with a proven track record of deploying **enterprise-grade conversational AI and agent-assist platforms**. Deep experience in high-volume, regulated contact center environments (Medicare/Healthcare). Built a unified intelligence layer that structurally eliminated non-compliance while reducing training ramp by 80%. Expert at translating complex business requirements into scalable AI solutions that deliver immediate ROI.

KEY ACHIEVEMENTS

✓ Built & deployed a 3-tier AI-assisted workflow platform (CCM) — zero compliance failures across all processes

✓ Reduced agent onboarding from 4 weeks to 3-5 days via real-time AI guidance and automation

✓ Integrated 11+ legacy systems into a single conversational AI interface for real-time agent support

✓ Successfully led digital transformation for contact centers managing 1,800+ compliant enrollments annually

PROFESSIONAL EXPERIENCE

Medicare Sales & Operations Manager

2022 – 2025

TailorMade Insurance Group / HealthPlanOne

- ♦ Led implementation of AI tools and CRM workflows that improved agent productivity and regulatory compliance in a remote-first contact center.
- ♦ Collaborated with stakeholders to **define technical requirements and KPIs** for new AI-powered sales scripts and coaching modules.
- ♦ Developed and delivered technical training for agentic systems, ensuring high adoption and measurable performance gains.

Founder & AI Solutions Builder

2024 – Present

SNG Cycles · Jaws AI 911

- ♦ Designs and implements **agentic AI workflows** for local businesses, focusing on lead capture and customer service automation.
- ♦ Builds custom API integrations between disparate CRM, marketing, and operations tools using no-code/low-code platforms and Python.
