PROFESSIONAL SUMMARY

Customer-focused operations leader with deep experience helping organizations improve performance through **AI adoption, workflow automation, process optimization, and stakeholder alignment**. Background spans contact center leadership, team development, QA, and large-scale workflow improvement in regulated environments. Passionate about translating AI and automation from experimentation into scalable, adoption-ready systems that drive measurable results.

PROFESSIONAL EXPERIENCE

Medicare Sales & Operations

2025 – 2026

HealthPlanOne (HPOne) · Remote

- ◆ Guided customers through complex Medicare enrollment while maintaining strict regulatory compliance — balancing customer advocacy, compliance, and business objectives simultaneously.
- ◆ Collaborated with compliance, QA, operations, and leadership to **identify friction points and drive process improvements** that enhanced efficiency and customer satisfaction.
- ◆ Utilized CRM platforms and operational systems to improve customer outcomes and enrollment efficiency in a high-volume remote environment.

Call Center Medicare Sales Manager

2022 – 2025

TailorMade Insurance Group

- ◆ Recruited, trained, coached, and managed high-performing contact center teams — developing **QA programs, coaching frameworks, and performance management systems** from the ground up.
- ◆ Led KPI tracking, reporting, workflow optimization, and continuous improvement initiatives in direct partnership with executive leadership.
- ◆ **Successfully drove adoption of new processes, technologies, and operational best practices** while maintaining strong team engagement and performance metrics.
- ◆ Managed cross-functional initiatives spanning sales, compliance, training, customer service, and operations.

Operations & Customer Experience Leadership

Prior

All Family Pharmacy / Trusted Medical Group

- ◆ Improved workflows, service delivery processes, customer communication standards, and operational performance in highly regulated healthcare environments. Supported leadership on organizational growth and CX initiatives.

KEY ACHIEVEMENTS

- ✓ Supported teams responsible for 1,800+ compliant Medicare enrollments in a single 12-month period

- ✓ Built & deployed a 3-tier AI-assisted workflow platform — zero compliance failures across all monitored processes

- ✓ Developed scalable QA and onboarding processes that improved efficiency while maintaining regulatory compliance

- ✓ Early adopter of AI tools (ChatGPT, Claude, Gemini) — built live automation workflows improving productivity and decision-making

- ✓ Translated complex regulations, products, and processes into clear customer-facing and team-facing solutions

- ✓ Led agent onboarding, coaching, QA, performance management, and continuous improvement simultaneously

CURRENT VENTURE — SNG CYCLES

Founder & AI-Powered Builder

2024 – Present

SNG Cycles · Electric Performance Powersports · Royal Palm Beach, FL

- ◆ Uses AI as a co-engineer to **solve real engineering problems** — motor selection, controller tuning, jackshaft geometry, suspension spec — reasoning through technical challenges with AI as a build partner
- ◆ Produces **AI-generated digital blueprints and full build documentation** for every custom vehicle configuration: frame geometry, drivetrain specs, component schematics
- ◆ Authored a **series of technical e-books** covering complete EV builds — LBX frame-up, 270-E Light Bee, CRF450 52kW conversion, jackshaft system, A+ trike — AI-assisted technical writing throughout
- ◆ Uses AI for **build scheduling and project management** — parts sequencing, lead time tracking, milestone planning across 3 active vehicle platforms
