- ▶ ChatGPT & Claude API Integrations
- ▶ n8n · Make · Zapier Automation
- ▶ REST APIs & Webhook Pipelines
- ▶ Supabase / PostgreSQL
- ▶ Python & JavaScript
- ▶ Microsoft 365 & Google Workspace

MARKETING & OPS PLATFORMS

- ▶ CRM & Lead Management Systems
- ▶ Contact Center Platforms
- ▶ Analytics & KPI Dashboards
- ▶ Content & Campaign Workflows

PROFESSIONAL SUMMARY

AI Automation Specialist with a proven record of **designing, deploying, and operationalizing AI-powered workflows** that real teams use daily. Built the CCM Enrollment Intelligence System from scratch — unifying 11 platforms for 300+ operational users, cutting overhead by \$160k/month, and reducing onboarding from weeks to days. Founder of Jaws AI 911, delivering custom automation solutions for businesses using ChatGPT, Claude, n8n, Make, and REST APIs. I build AI systems that generate measurable results — not proof-of-concepts that gather dust.

KEY ACHIEVEMENTS

- ✓ Unified 11 disparate platforms into a single AI intelligence layer serving 300+ operational users
- ✓ Reduced team onboarding from 4 weeks to 3–5 days through AI-assisted coaching and real-time guidance
- ✓ Delivered \$160,000/month in operational savings via automated compliance and workflow intelligence
- ✓ Built and trained client-facing AI automation systems using ChatGPT, Claude, Make, and n8n integrations

PROFESSIONAL EXPERIENCE

Director of Systems & Operations / AI Architect

2022 – 2025

TailorMade Insurance Group — Complete Care Marketing (CCM)

- ◆ Designed and built the **CCM Enrollment Intelligence System** — an AI platform unifying 11 tools into a real-time coaching and compliance engine for 300+ agents.
- ◆ Integrated **ChatGPT and LLM-powered workflows** into daily operational processes, replacing manual data entry, compliance checks, and call coaching with automated intelligence.
- ◆ Developed training programs and onboarding materials enabling non-technical staff to operate AI tools with high confidence; reduced ramp time by **80% (4 weeks → 3–5 days)**.
- ◆ Partnered with marketing, compliance, and ops leadership to align automation strategy with business objectives and performance KPIs.

Founder & AI Automation Consultant

2024 – Present

Jaws AI 911 (jawsai911.com)

- ◆ Builds end-to-end AI automation solutions for local businesses using **n8n, Make, Zapier, REST APIs, Supabase, and LLM orchestration** via Claude and OpenAI.
- ◆ Analyzes client workflows to identify automation opportunities, then designs and deploys custom pipelines that reduce manual effort and surface actionable data.
- ◆ Provides hands-on tool training and support to ensure sustained adoption — not just deployment — of AI-powered systems.

Founder

2023 – Present

SNG Cycles

- ◆ Launched an AI-assisted e-bike brand using automated content workflows, AI-generated marketing assets, and **data-driven product positioning** to accelerate go-to-market execution.
