PROFESSIONAL SUMMARY

Strategic AI Adoption Manager with a proven record of leading large-scale **digital transformations and change management initiatives**. Expert at moving workforces from legacy manual processes into AI-native workflows. Successfully deployed a unified intelligence platform for 300+ agents in a high-compliance environment, delivering structural improvements in training efficiency, regulatory precision, and operational ROI. Passionate about helping enterprises bridge the gap between AI experimentation and full-scale organizational adoption.

KEY ACHIEVEMENTS

- ✓ Led the rollout of the CCM platform, achieving 100% agent adoption across a 300-person remote team
- ✓ Reduced training ramp from 4 weeks to 3-5 days via real-time AI-assisted coaching and verbatim guidance
- ✓ Eliminated manual compliance auditing by automating 100% of risk detection on live calls
- ✓ Saved over \$160,000 per month in training and operational overhead through structural AI adoption

PROFESSIONAL EXPERIENCE

Director of Systems & Operations

2022 – 2025

TailorMade Insurance Group

- ◆ Championed the **adoption of agentic AI systems** across the organization, managing the cultural and technical shift for hundreds of employees.
- ◆ Developed and delivered comprehensive training programs for new AI tools, focusing on **measurable performance gains and user feedback loops**.
- ◆ Partnered with executive leadership to align AI adoption strategies with core business objectives and regulatory requirements.

Founder & AI Implementation Consultant

2024 – Present

Jaws AI 911 / SNG Cycles

- ◆ Consults with local businesses on **AI adoption strategies**, replacing manual friction points with automated workflows and real-time decision support.
- ◆ Authors technical documentation and "how-to" guides for AI-assisted engineering and administrative tasks.
