CORE COMPETENCIES

- AI Operations
- Creative Workflow Design
- Stakeholder Management
- Technical Documentation
- Customer Success
- Quality Assurance
- Root Cause Analysis
- Project Management
- Guitar Performance
- Music Theory

AI & TECHNOLOGY

- ▶ Prompt Engineering (Claude, GPT)
- ▶ Workflow Automation (Make, Zapier)
- ▶ API Integration Basics
- ▶ Content Generation Pipelines
- ▶ Digital Build Documentation
- ▶ CRM & ERP Platforms

MUSICAL BACKGROUND

- ▶ Professional Guitarist
- ▶ Studio & Session Work
- ▶ Instrument Maintenance & Setup

PROFESSIONAL SUMMARY

Multi-disciplinary specialist combining **senior-level operations leadership with professional musical expertise and advanced AI system design**. Deeply experienced in building unified intelligence layers for complex, high-stakes environments. Passionate about applying the analytical precision of high-volume operations and the creative intuition of professional performance to develop the next generation of AI music platforms.

KEY ACHIEVEMENTS

- ✓ Logged 1,000+ hours of R&D in AI systems, specializing in agentic workflows and creative automation
- ✓ Built the CCM platform: A unified AI-assisted workflow layer that integrated 11+ legacy technical systems
- ✓ Reduced training ramp by 80% for high-compliance teams via real-time AI coaching and decision support
- ✓ Authored technical EV build series using AI-assisted writing and documentation pipelines

EXPERIENCE

Founder & AI Solutions Builder
SNG Cycles / Jaws AI 911

2024 – Present

- ◆ Uses AI as a co-engineer to **solve complex technical challenges**—authoring technical schematics and build documentation for high-performance EV platforms.
- ◆ Develops **automated content pipelines** for marketing and customer service, bridging the gap between technical build and creative output.

Director of Systems & Operations
TailorMade Insurance Group

2022 – 2025

- ◆ Led large-scale digital transformation, moving hundreds of agents into a modernized, **AI-supported workflow environment** in a highly regulated industry.
