- ▶ OpenAI · Anthropic · Gemini
- ▶ GitHub · CI/CD Basics

FOUNDER EXPERIENCE

- ▶ SNG Cycles
- ▶ Jaws AI 911
- ▶ Complete Care Marketing

PROFESSIONAL SUMMARY

Founder-led automation specialist with a deep technical focus on building **high-stakes agentic workflows and API-first architectures**. Expert at replacing manual, fragmented legacy processes with unified intelligence layers. Built and deployed a full-scale Enrollment Intelligence System for contact centers that integrated 11+ platforms, automated compliance auditing, and achieved near-instant ROI through operational efficiency.

KEY ACHIEVEMENTS

- ✓ Built CCM Platform: A 3-tier agentic workflow engine in a single 36-hour development session

- ✓ Integrated Sunfire, MARX, EnrollHere, and 8 other platforms into one unified API-driven interface

- ✓ Automated real-time compliance monitoring for 300+ agents, eliminating manual QA overhead

- ✓ Developed custom AI-assisted build documentation and technical schematics for EV platforms

TECHNICAL EXPERIENCE

Founder & Automation Architect

2024 – Present

Jaws AI 911 / SNG Cycles

- ◆ Architects **complex multi-step automations** using n8n and Make to streamline lead acquisition, customer onboarding, and technical service delivery.
- ◆ Leverages **LLM orchestration** to automate content generation, technical writing, and real-time decision support systems.
- ◆ Designs and maintains custom database schemas and API endpoints for internal toolsets.

Director of Systems & Operations

2022 – 2025

TailorMade Insurance Group

- ◆ Transformed a legacy manual contact center into an **automation-first environment**, leading the migration of data and workflows into modernized CRM systems.
- ◆ Oversaw the technical rollout of the CCM platform, managing stakeholder alignment and technical troubleshooting during the transition.
