MUSICAL BACKGROUND

- ▶ Professional Guitarist
- ▶ Technical Proficiency (Electric/Acoustic)
- ▶ Advanced Music Theory Knowledge

PROFESSIONAL SUMMARY

Multi-disciplinary specialist combining **professional musical expertise with high-stakes operational rigor and advanced AI training capabilities**. Deeply experienced in maintaining 100% precision in regulated environments (Medicare/Healthcare). Expert at translating complex artistic nuances into structured data for AI model training. Logged over 1,000 hours of AI R&D, specializing in agentic workflows and creative content generation.

KEY ACHIEVEMENTS

✓ Logged 1,000+ hours of R&D in AI systems, specializing in how models interpret and generate creative output

✓ Maintained zero compliance failures for high-volume healthcare teams, ensuring 100% data integrity

✓ Authored AI-assisted technical build documentation, maintaining extreme detail across complex EV schematics

✓ Successfully led agents through structural digital transitions, ensuring high quality and user adoption

EXPERIENCE

Founder & AI Builder

SNG Cycles / Jaws AI 911

2024 – Present

- ◆ Trains custom AI workflows to **reason through engineering challenges**—motor selection, controller tuning, and technical schematics.
- ◆ Develops **quality control protocols** for AI-generated content, ensuring technical accuracy and creative consistency.

Quality Assurance & Operations Manager

TailorMade Insurance Group

2022 – 2025

- ◆ Designed and managed **rigorous QA programs** to ensure 100% compliance and precision in a high-volume, remote operational environment.
