THE OPPORTUNITY

350 AGENTS. UNTAPPED GROWTH.

An operation at your scale has everything it needs to accelerate significantly — the agents, the infrastructure, the carrier relationships. Clearview is the unified intelligence layer that unlocks what is already there.

20–30%**PRODUCTION GROWTH**

Projected increase in enrollment volume across your agent base within the first 12 months

+20 pts**QA SCORE IMPROVEMENT**

Automated compliance guardrails and real-time guidance drive measurable QA gains

Zero**HIGH-RISK COMPLIANCE CALLS**

Structurally impossible — the platform enforces compliance, not just flags it

Your agents work hard. The problem isn't effort — it's infrastructure. Eleven open apps, manual tab switching, compliance risk on every call, and new hires taking weeks to get up to speed. **Clearview eliminates all of it.**

One screen. Every system. Every call. From the moment a beneficiary picks up to the confirmation PDF — Clearview handles the flow so your agents can focus on one thing: **closing the enrollment.**

THE PLATFORM

ONE APP. ONE SCREEN. ONE FLOW.

Your agents work across a complex stack every single day — enrollment portals, carrier systems, compliance references, and more. Clearview sits above all of it as a single unified intelligence layer.

Unified Integration

Connects directly with EnrollHere, TrueTrack, MARX, Sunfire, SharePoint, UHone Portal, and carrier portals — pulling from every system in real time so agents never leave the screen.

Doctor & Medication Finder

Real-time in-network doctor lookup and live formulary by plan — on the same screen, mid-call, without switching tabs or waiting for portals to load.

Chrome Autofill Engine

Automatically populates Sunfire, TrueTrack, and all carrier portals — eliminating manual data entry and the errors that come with it.

Beneficiary E-Sign Enrollment

Enrollment link generated and delivered to the beneficiary without leaving Clearview. Auto-generated confirmation PDF delivered on completion.

Manager Approval Queue

Slack-integrated approval workflow — managers review and approve flagged enrollments in real time without disrupting active agents.

11 Platforms → 1 Screen

Every system your operation runs on — consolidated into one interface. No context switching. No missed steps. No compliance gaps.

COMPLIANCE ENGINE

STRUCTURALLY IMPOSSIBLE TO GET WRONG.

Clearview doesn't just flag compliance issues — it makes non-compliant enrollments structurally impossible. The system monitors every active call in real time and intervenes the moment a risk is detected.

1

Risk Detected

The system identifies a compliance scenario in real time during the live enrollment call — before the agent or manager would ever catch it manually.

2

Alert Fires — Enrollment Locked

A visual alert appears immediately on the agent's screen. The enrollment is locked — the call cannot proceed until the issue is resolved. No override. No workaround.

3

Verbatim Displayed — Agent Guided

The exact required language appears on screen. The agent reads it. The enrollment unlocks. Compliance is documented automatically. Zero manual effort from managers.

"The compliance issue isn't that agents are careless. It's that no one built a system that makes doing it wrong impossible. Clearview is that system."

REVENUE IMPACT

WHAT GROWTH ACTUALLY LOOKS LIKE.

At 350 agents and an estimated \$52M–\$70M in annual production volume, here is what a 20–30% increase means in real dollars — and what Clearview makes possible.

\$10M–\$14M

ADDITIONAL ANNUAL REVENUE

Conservative 20% growth projection

\$16M–\$21M

ADDITIONAL ANNUAL REVENUE

Full potential at 30% growth

Week 2

AGENTS CLOSING

Not week 5 — Clearview Onboard cuts ramp time dramatically

These numbers are not projections built on hope. They are the direct result of removing the friction that currently exists in your operation: tab switching, compliance delays, manual data entry, and slow agent onboarding.

Carrier Partner Growth

As performance improves, stronger carrier relationships follow — and new opportunities open. Better compliance metrics lead to better carrier standing across your book.

Zero Unbilled Enrollments

Every completed enrollment is confirmed, documented, and billed. The platform closes the loop automatically — no revenue leaks from incomplete or unbilled enrollments.

Psst...

You thought that was something?

Check this out.

WHAT'S COMING NEXT

Meet the AI coaches that live inside Clearview — named, personalized, and on every call with your agents in real time. This is what closes the gap between your best agent and every agent.

THREE THINGS CVC COACHES DO THAT NOTHING ELSE CAN:

- ◆ Give real-time in-ear guidance while agents are live on the phone — not after the call, *during it*
- ◆ Learn each agent's individual style, objection patterns, and close tendencies — and improve every call
- ◆ Close compliance gaps in real time — before the call ends, not flagged in a report two days later

CLEARVIEW VIRTUAL COACH

MEET YOUR CVC COACHES.

Every agent picks their coach on day one. Named by them. Theirs from day one. For their entire career. The coach learns their style, their objection patterns, and their close tendencies — and gets better every call.

**Dale**

THE CLOSER

"Every call ends in a close. No exceptions."

**Donna**

THE MENTOR

"Building something real — one call, one win at a time."

**Carrie**

THE STRATEGIST

"Let's map this call out together — step by step."

**Sean**

THE MOTIVATOR

"You have everything you need. Let's go take some names."

The coach is live on every call — in the agent's ear, in real time. Handling objections. Flagging compliance risks. Suggesting the close. The agent stays focused on the beneficiary. The AI handles everything else.

FULL PICTURE

WHY CLEARVIEW CHANGES EVERYTHING.

THE NUMBERS

- ♦ **\$10M-\$21M** projected revenue impact
- ♦ Agents producing by **week 2** , not week 5
- ♦ **Zero** unbilled enrollments
- ♦ **Zero** high-risk compliance calls
- ♦ **+20 pts** QA score improvement

THE TECHNOLOGY

- ♦ One screen replacing **11 open apps**
- ♦ Real-time compliance — structurally impossible to get wrong
- ♦ CVC — live AI coach on every call
- ♦ Instant payer rule intelligence
- ♦ Complete audit trail — zero manual effort

THE PEOPLE

- ♦ Agents focus on **people** — not systems
- ♦ New hires confident from **day one**
- ♦ Managers see the whole floor — **one dashboard**
- ♦ Every agent has a **personal AI coach**
- ♦ Turnover reduced — agents **succeed faster**

THE OPERATION

- ♦ Full audit trail on every enrollment
- ♦ Carrier compliance metrics improve automatically
- ♦ Scales to any team size — no infrastructure change
- ♦ Live in **30 days** — full deployment
- ♦ No disruption to existing carrier relationships

RETURN ON INVESTMENT — CONSERVATIVE

WHAT YOU GET BACK.

This is not a cost. Every dollar invested in this platform returns measurable, documented revenue and savings across your operation.

REVENUE DRIVER	HOW IT WORKS	IMPACT
Production Increase — Clearview Core	20% lift across 350 agents. One screen, every system.	\$10,000,000
Close Rate Improvement — CVC	Real-time AI coaching. Right response on every objection.	\$8,000,000
Training Savings — Clearview Onboard	Ramp time cut dramatically. \$156K saved per class for paid programs.	\$500,000
Agent Retention	Agents who succeed early stay longer. Reduced turnover cost.	\$750,000
Compliance Risk Elimination	Zero high-risk calls. No CMS penalties. No corrective action costs.	Incalculable
Conservative Year-One Total Impact		\$19,250,000+

"For every dollar invested in this platform, you get measurable production back — plus the compliance protection that keeps your carrier relationships intact and your operation off CMS radar."

CLEARVIEW VIRTUAL COACH

INTRODUCING CVC.

Real-time AI guidance on every live call. CVC doesn't replace your agents — it makes every agent your best agent, on every call, from day one.

PHASE 1 · DAYS 1-30

Clearview Core

Full platform live across all 350 agents. One screen, every system, every call. Immediate production lift from day one.

PHASE 2 · MONTHS 1-3

Data & Learning

Clearview learns your call patterns, objection types, payer rules, and agent behaviors. The AI gets smarter on your operation specifically.

PHASE 3 · MONTHS 4-6

CVC Goes Live

Clearview Virtual Coach activates. Every agent has an AI in their ear — guiding, coaching, and closing alongside them on every call.

PHASE 4 · MONTH 6+

Clearview Onboard

New agent training time drops dramatically. AI coaches live from day one. Your onboarding pipeline becomes a competitive advantage.

The result: *A floor of 350 agents where every single person has a real-time AI coach in their ear — trained on your payer rules, your objections, and your close patterns. No other operation in Medicare telesales has this.*

DEPLOYMENT

YOUR ONBOARDING ROADMAP.

From signed agreement to fully live — 30 days. Here is exactly what that looks like.

Day 1 Agreement Signed Licensing executed. Partnership is official. Clock starts.	Days 2–5 Discovery & Access CCM maps your systems and integration points. Credentials and access provisioned.	Days 6–14 Integration Build Clearview connects to your full tech stack. Carrier portals, CRM, enrollment systems — all integrated.	Days 15–21 Testing & Training Live testing with agents. Compliance flows verified. Team trained and ready.	Day 30 Go Live Full deployment. All 350 agents active. Production increase begins immediately.
--	--	---	---	---

Phase Two — Marketing Growth Proposal *presented upon successful go-live. The platform grows with your operation — Clearview Core is the foundation. What comes next is built on your results.*

WHAT'S INCLUDED AT GO-LIVE

- ◆ Full Clearview Core for all 350 agents
- ◆ All carrier integrations live and tested
- ◆ Compliance engine active on every call
- ◆ Manager dashboard and approval queue

PHASE TWO UNLOCKS

- ◆ CVC — live AI coaching on every call
- ◆ Post-call AI review and agent scoring
- ◆ Clearview Onboard — agents live in days
- ◆ Full marketing growth strategy

Day 1 AGREEMENT SIGNED Clock starts immediately	30 Days FULLY LIVE All 350 agents active	Month 2 RESULTS VISIBLE Production increase measurable
